SHINY GREEN
RESISTANT Minuto
PRODUCTIVE SMOOTH

A **smooth** mini parthenocarpic cucumber variety, suitable for greenhouse and tunnel cultivation. The plants are open and compact, featuring very short internodes, with an **excellent generative capacity** and **high productivity**. For spring and summer growing cycles. The perfectly **cylindrical** fruits have a good **shelf life**, a length of 10-14 cm and a **shiny, attractive green colour**.

Top Seeds experts recommend transplanting between mid-February and mid-August.
